The invention set forth in claims 1-3 is disclosed in document 1 (page 3, left column, line 42 to page 4, left column, line 16) cited in the international search report and, therefore, lacks novelty and does not involve an inventive step.

The invention set forth in claims 4 and 7-9 does not involve an inventive step in the light of document 1 and document 2 (page 6, lines 6-19) cited in the international search report. It would be easy for a person skilled in

the art to apply the three protruding parts and the actuator disclosed in document 2 to the invention disclosed in document 1.

The invention set forth in claim 5 does not involve an inventive step in the light of document 3 (page 3, left column, line 43 to page 3, right column, line 1) cited in the international search report. It would be easy for a person skilled in the art to apply the third leaf spring disclosed in document 3 to the invention disclosed in document 1.

The invention set forth in claim 6 does not involve an inventive step in the light of document 1 and document 4 (page 9, line 3 to page 10, line 1) cited in the international search report. It would be easy for a person skilled in the art to apply the opening portion disclosed in document 4 to the invention disclosed in document 1.
